# TCIE-01 Wireframe Figma Design

**Project Name:** StayBuddy

**Description:** StayBuddy is an application where people can find stays such as hostels, PGs and rental rooms for students and working professionals. We have gathered all the information and created this application so that you don't have to go through multiple websites because the data is scattered all over the internet and here we are providing everything at the one place.

**Team Members:**

1. Priyanka Dafda - 25SOECE13051 (BTECH 5CEG)
2. Tisha Mandaviya - 25SOECE13066 (BTECH 5CEG)
3. Darshan Parmar - 25SOECE13072 (BTECH 5CEB current) (BTECH 5CEG old)

# User

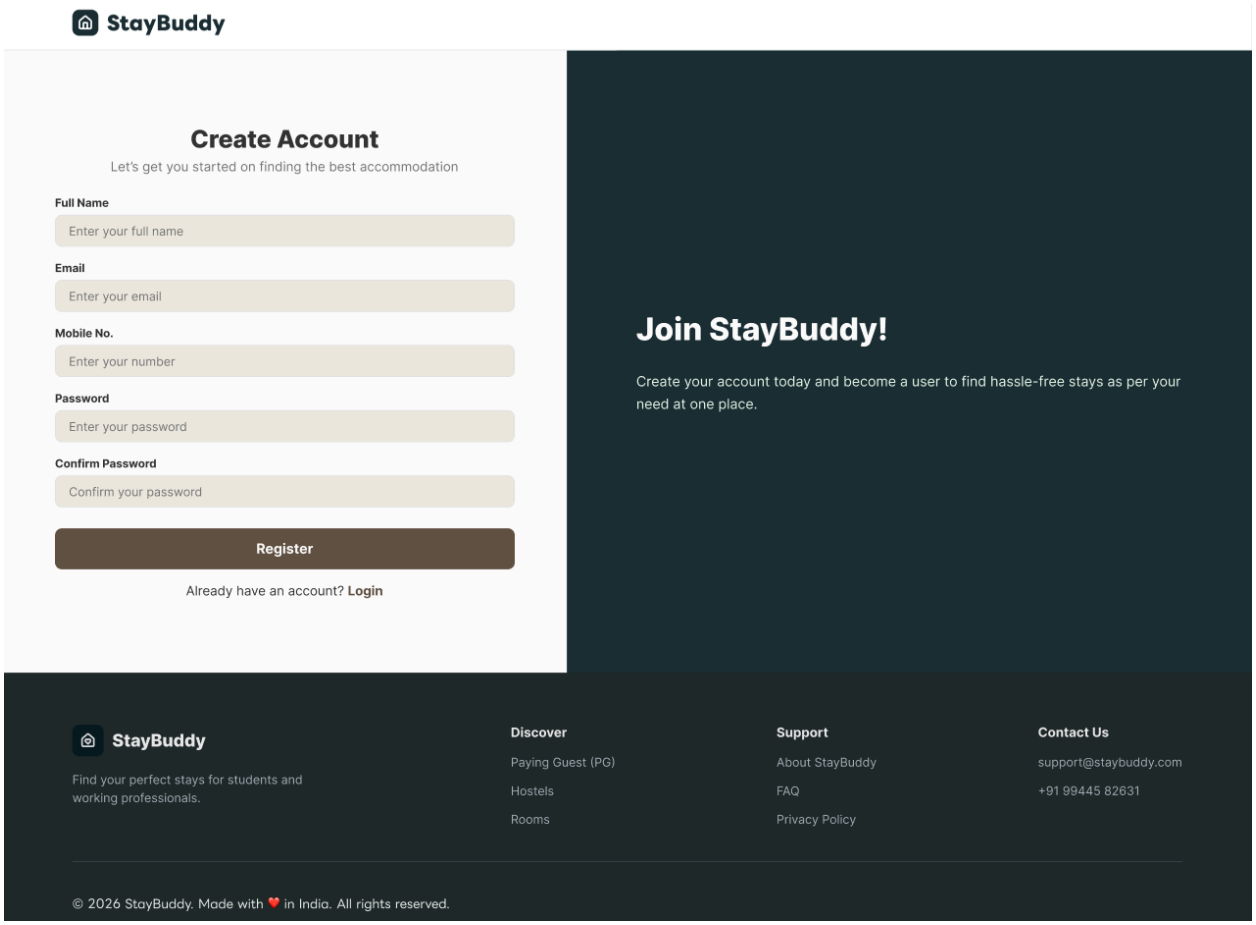

1. **Login**

   Allows existing users to securely log in to their StayBuddy account and access their personalized features.

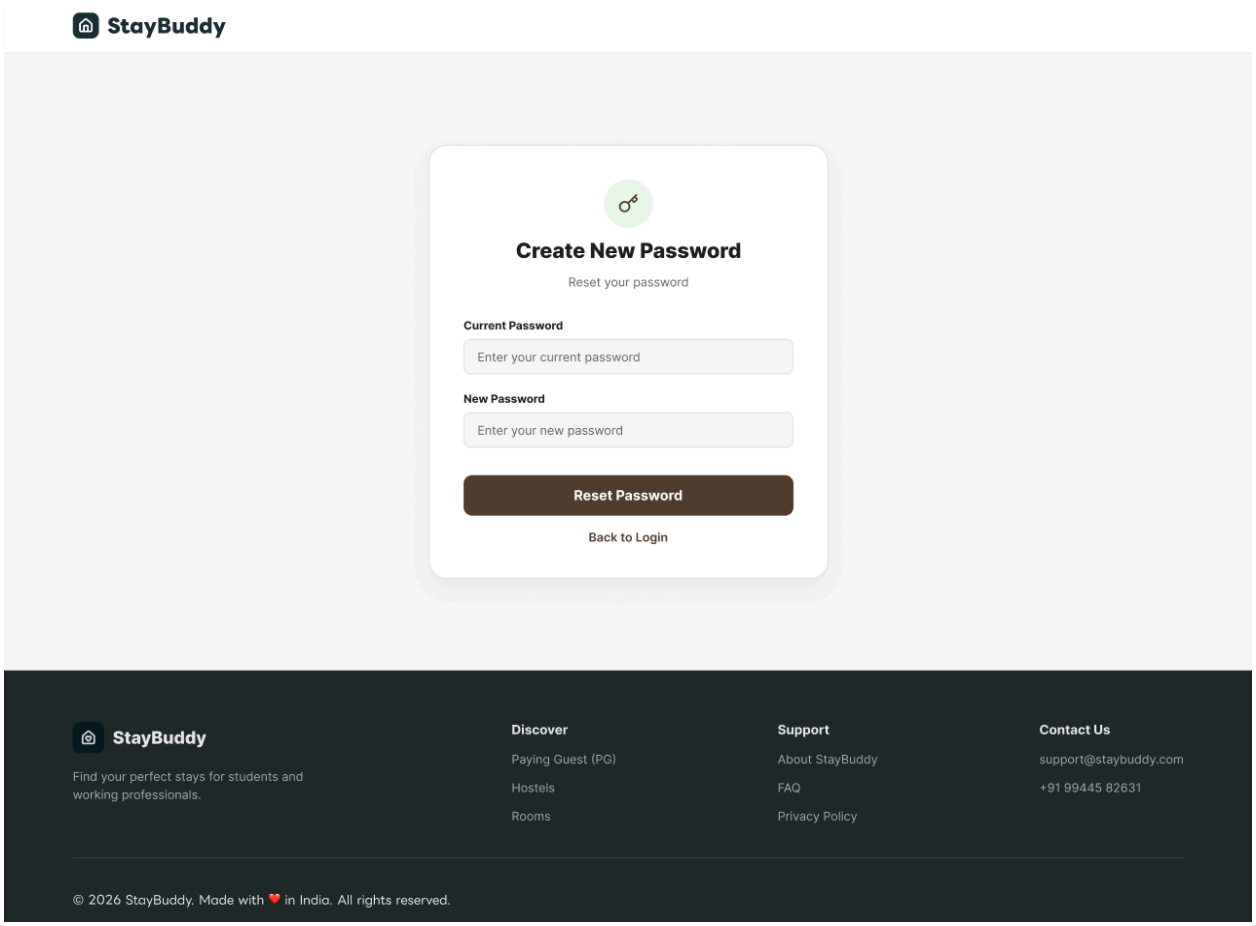

2. **Register**

   New users can create a StayBuddy account by entering their basic details and creating login credentials.

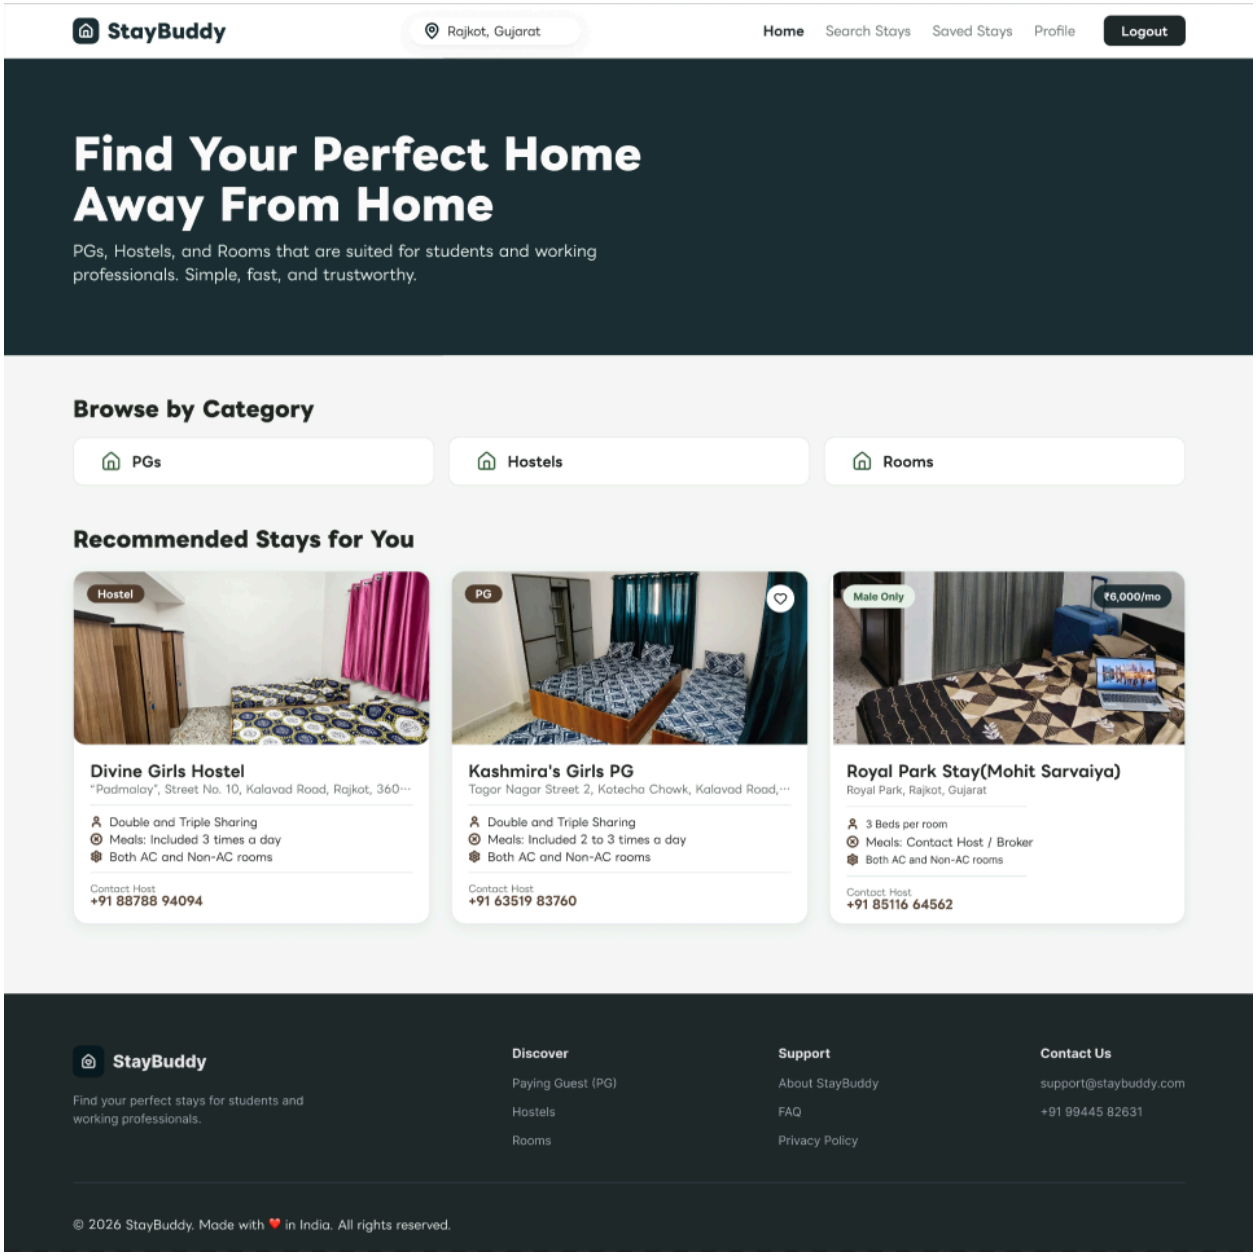

3. **Forgot Password?**
   Helps users reset their password if they forget it and regain access to their account.

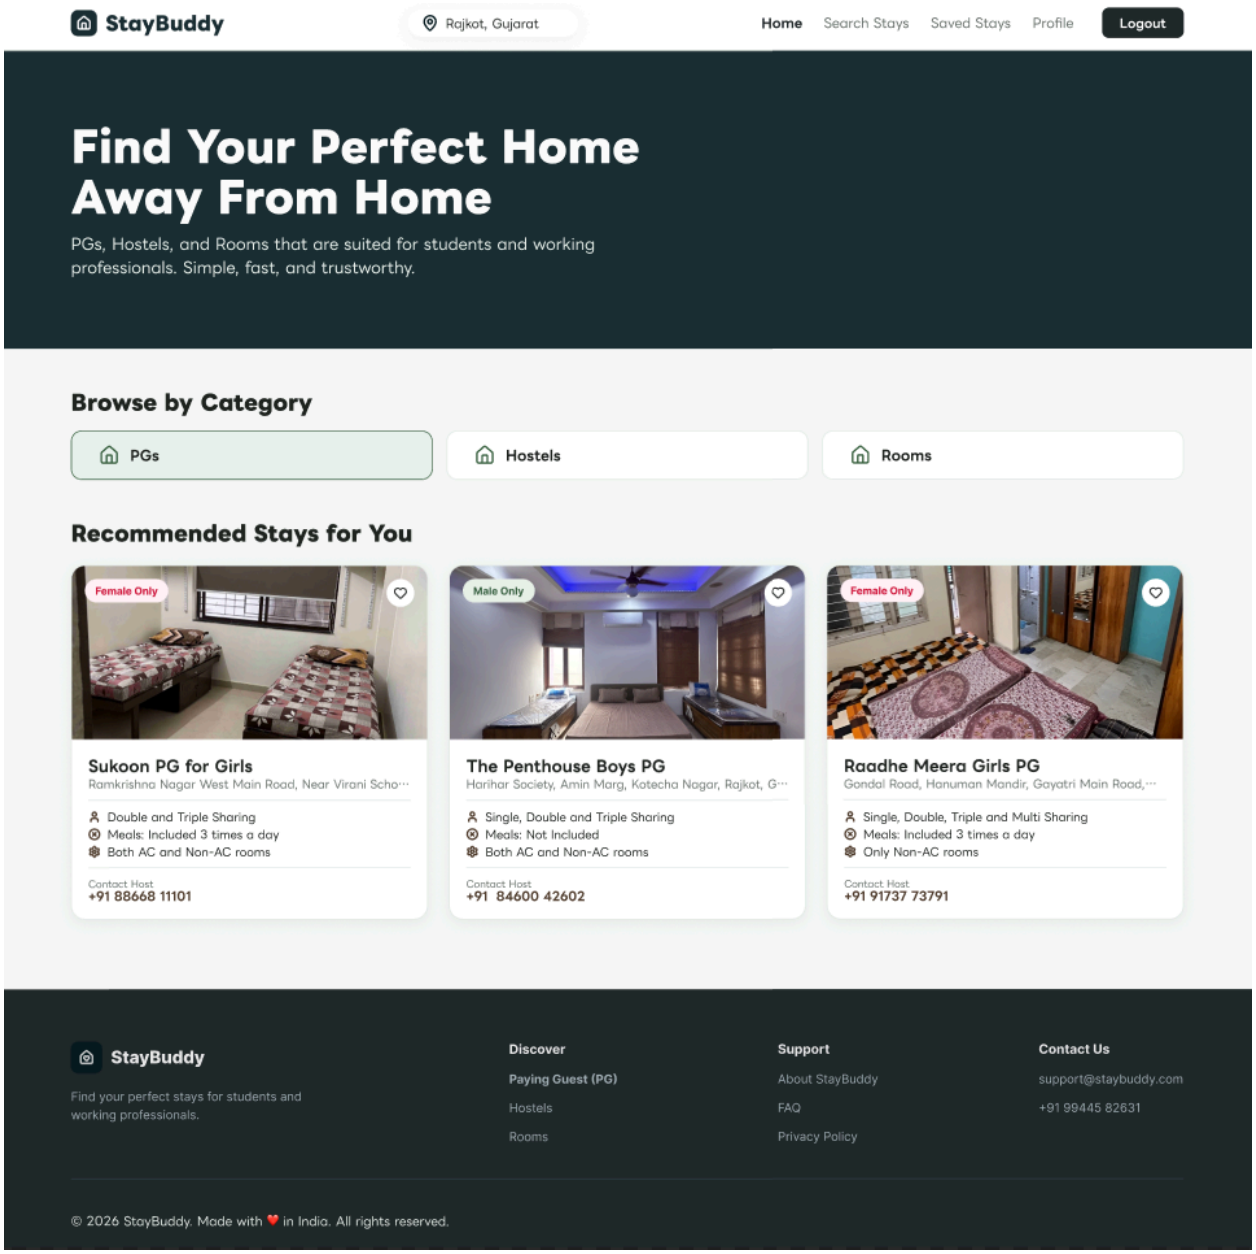

4. **Dashboard/Home**

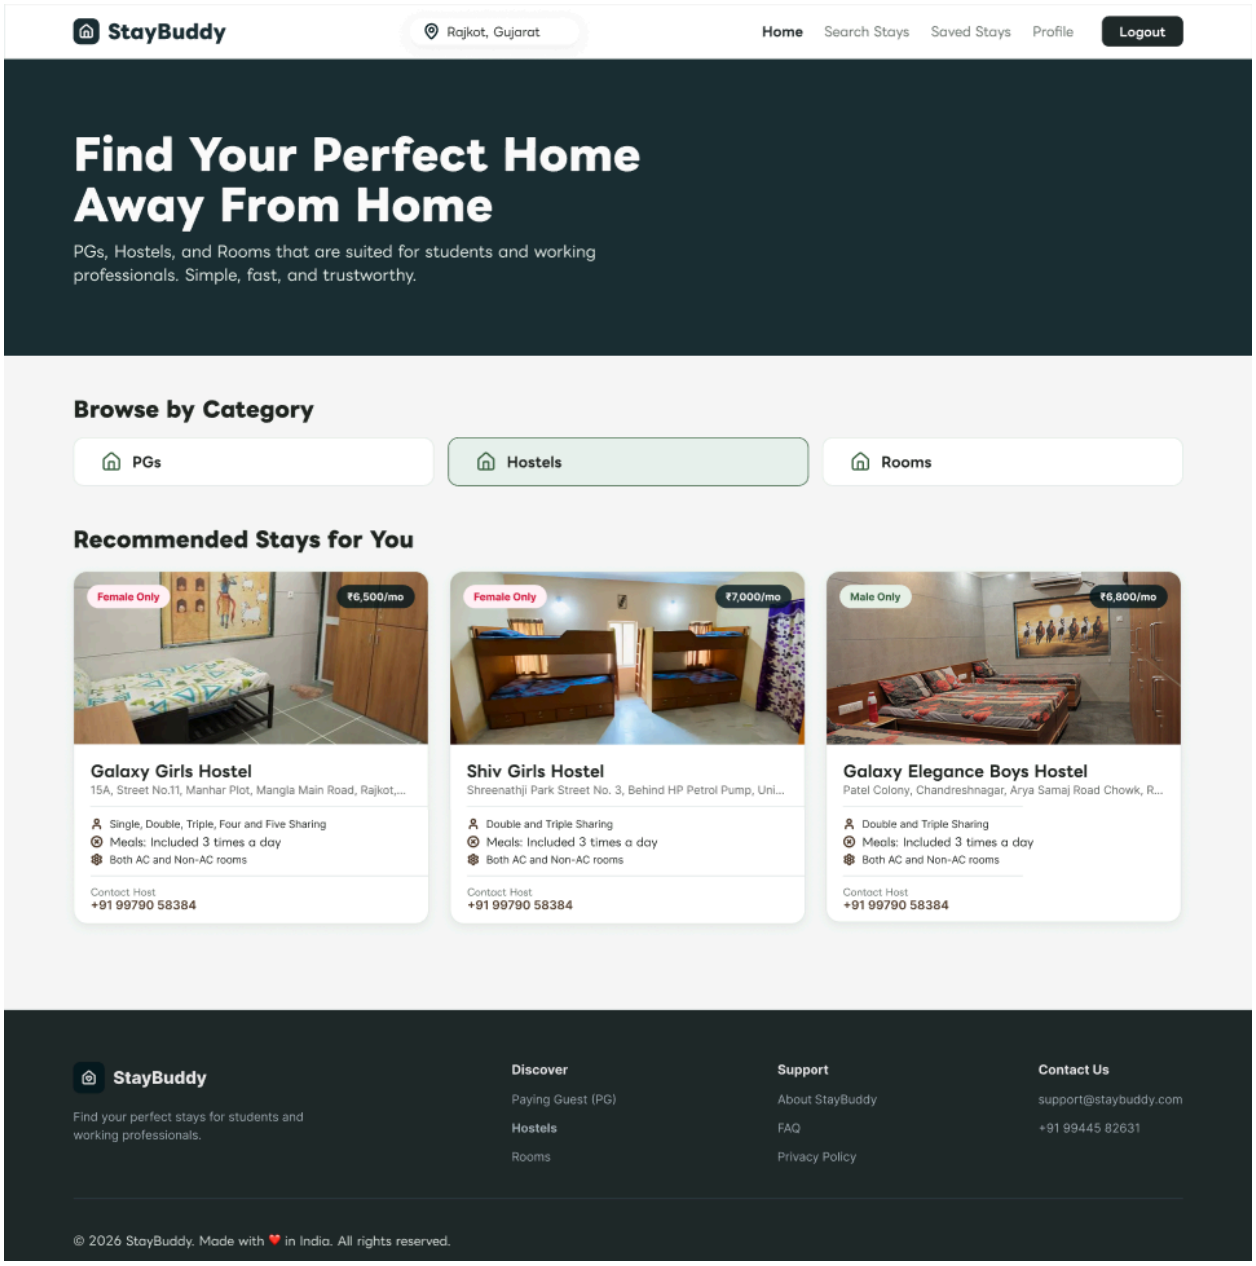

The main page of StayBuddy where users can explore stays, categories.

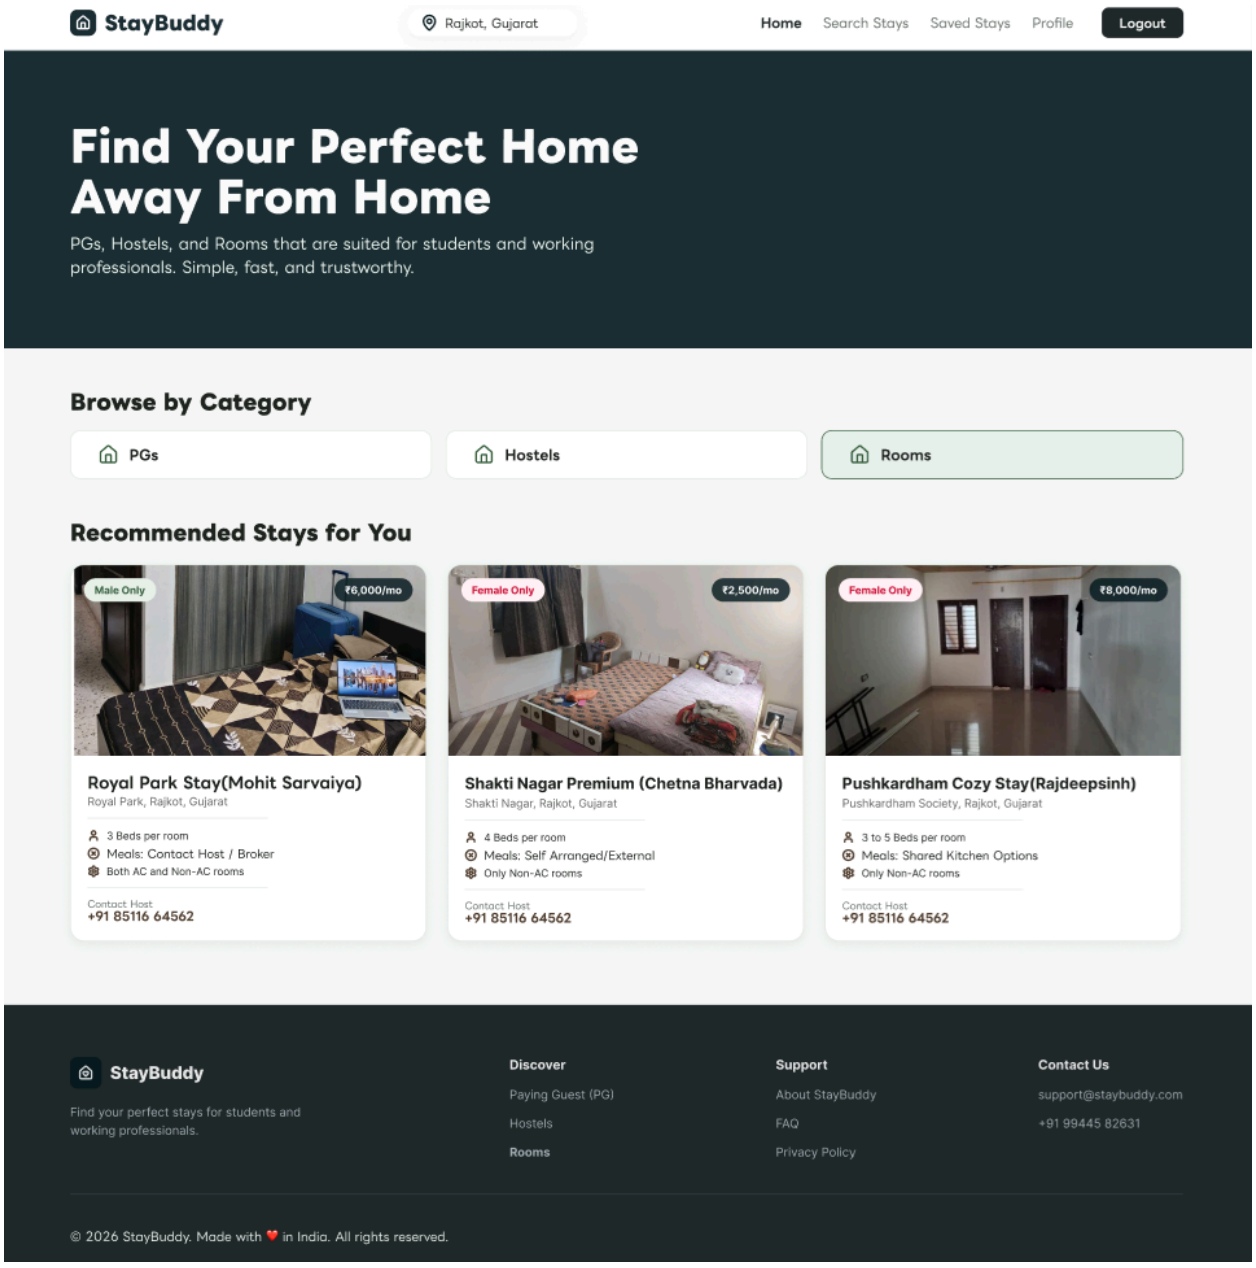

5. **Browse by Category (PGs)**
   Shows available PG accommodations so users can easily find a suitable place to stay.

6. **Browse by Category (Hostels)**
   Displays available hostels and their details, making it easier for users to explore hostel options.

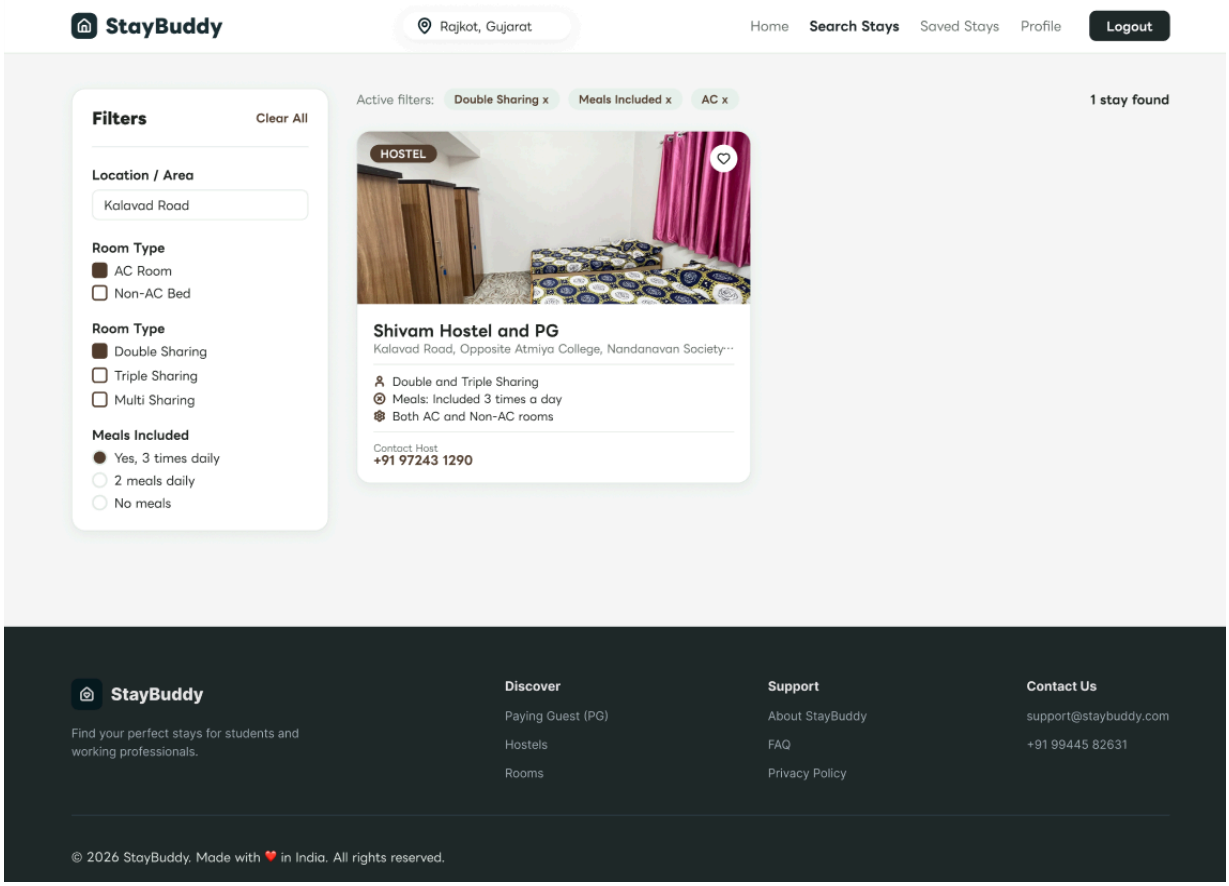

7. **Browse by Category (Rooms)**
   Allows users to explore available rooms and find an option that matches their needs.

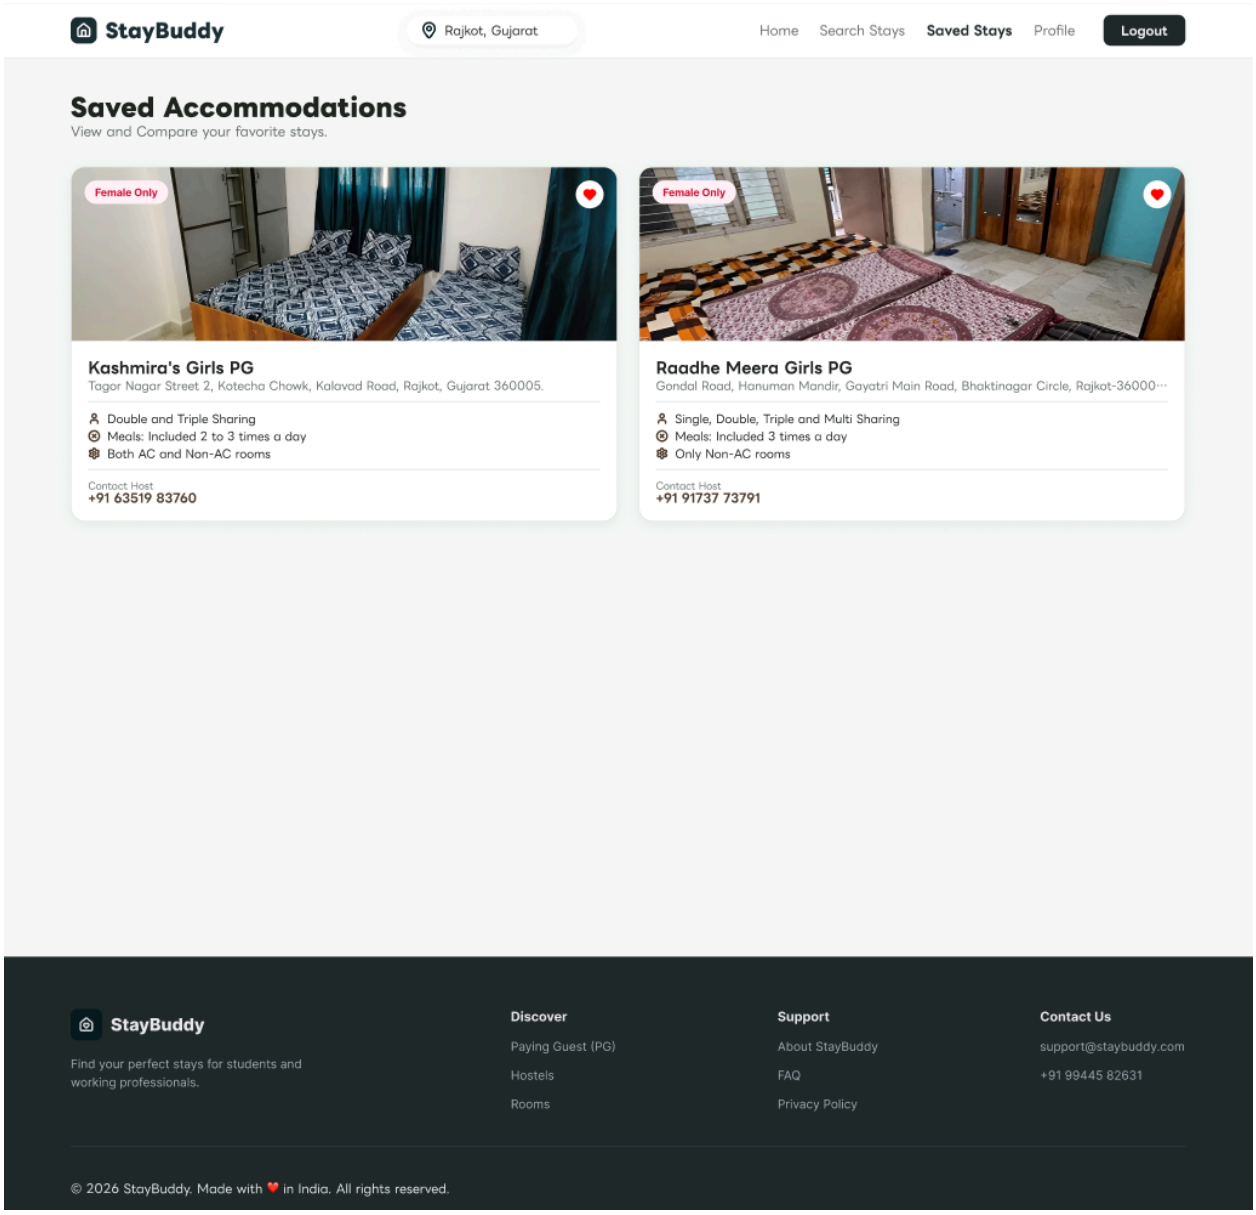

8. **Search Stays**

   Users can search for stays and use filters such as location, budget, gender, and room type to find suitable options.

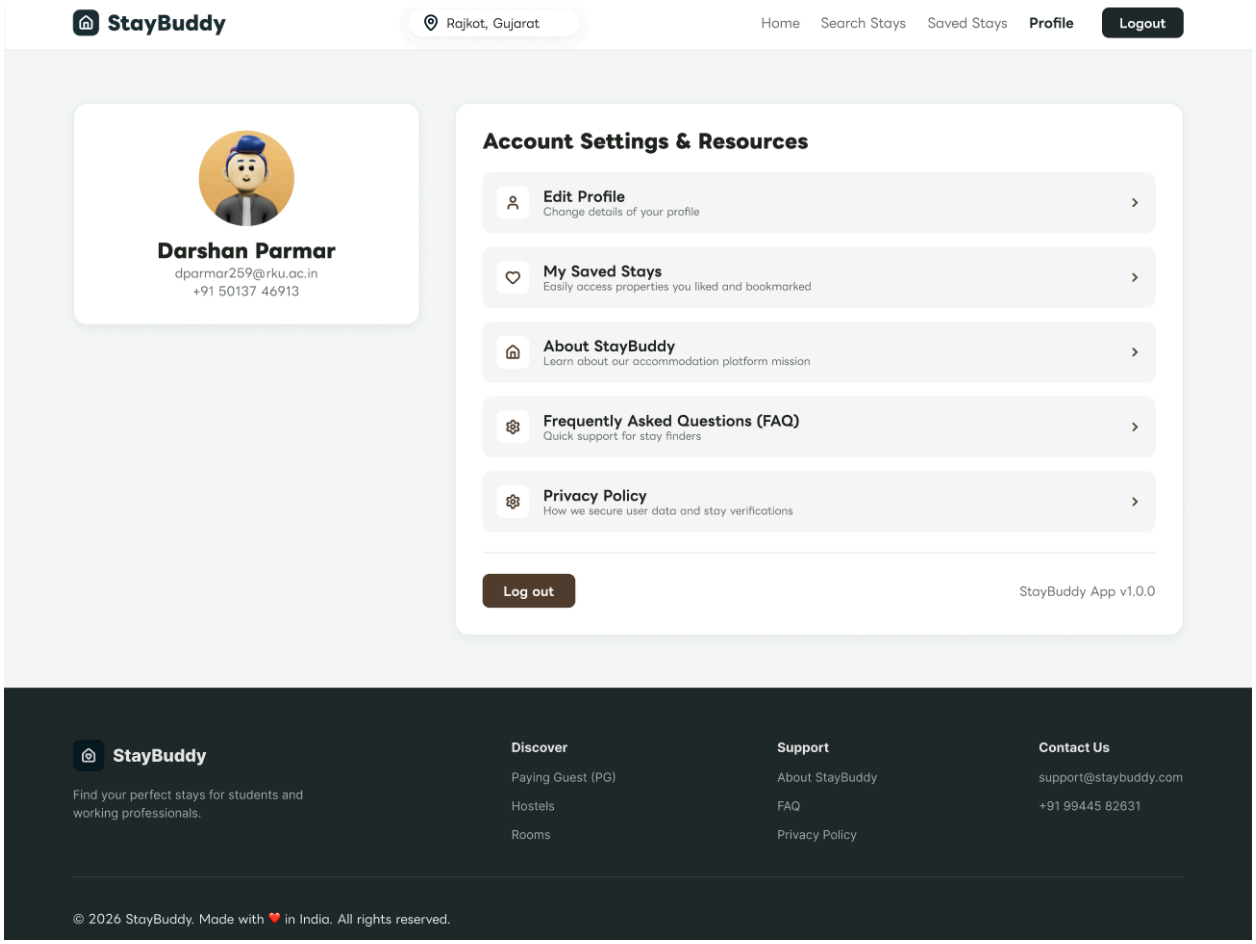

9. **Saved Stays**
   Shows the stays that users have saved so they can easily check them again later.

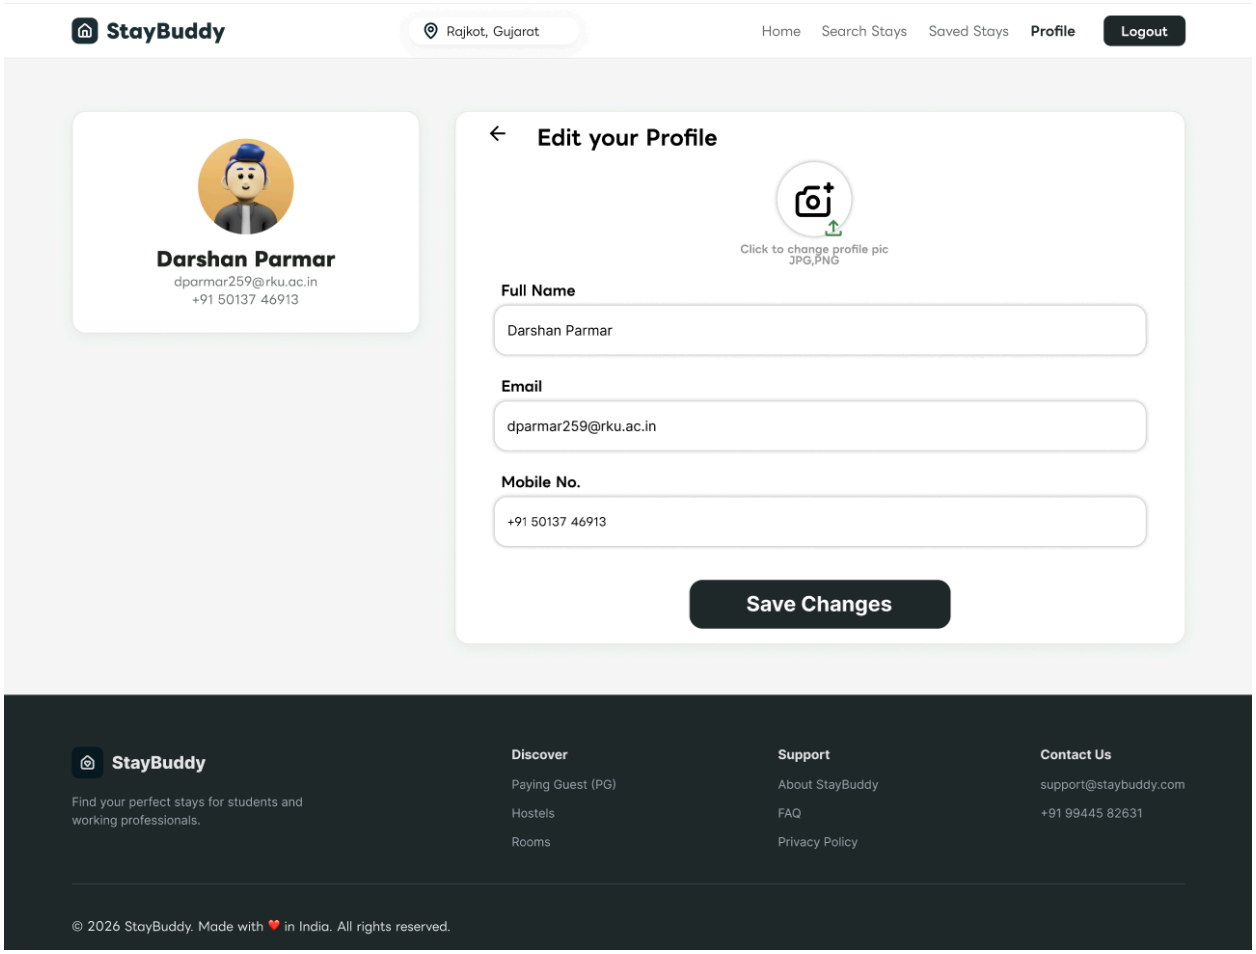

**10. Profile**

Displays the user's personal information and basic account details.

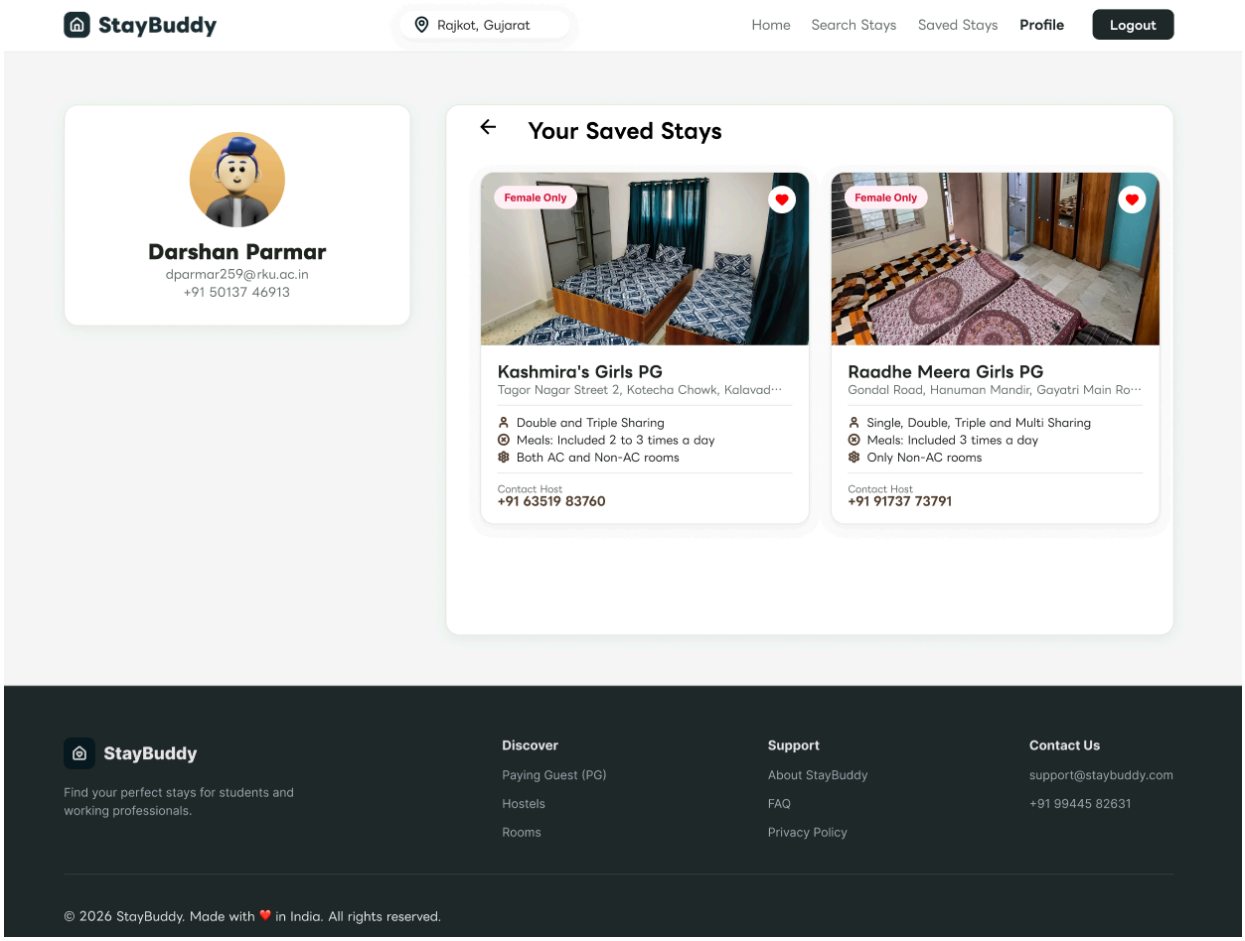

**11. Edit Profile**

Allows users to update their personal information whenever needed.

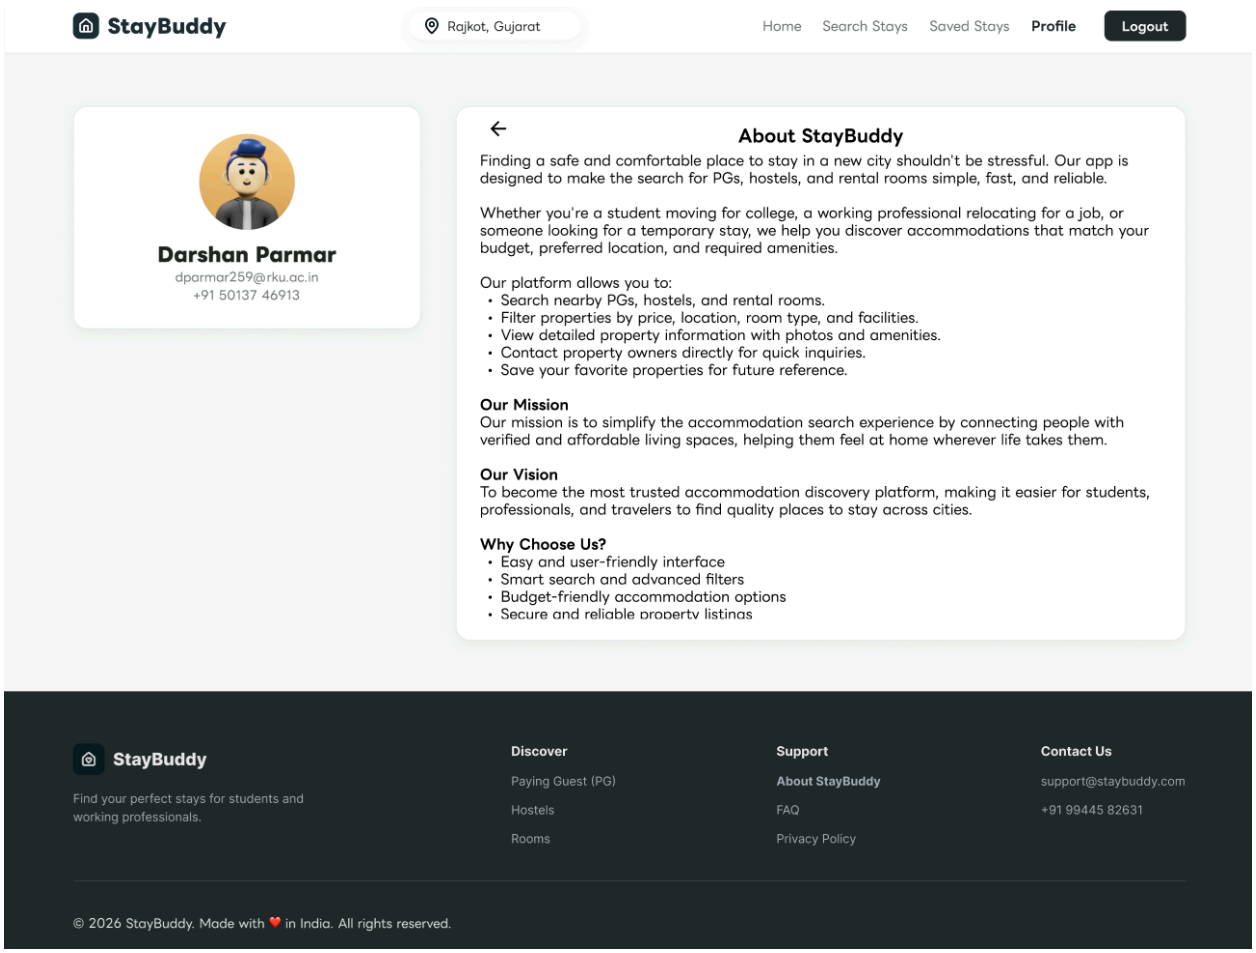

**12. My Saved Stays**

Provides a quick view of all the accommodations saved by the user for future reference.

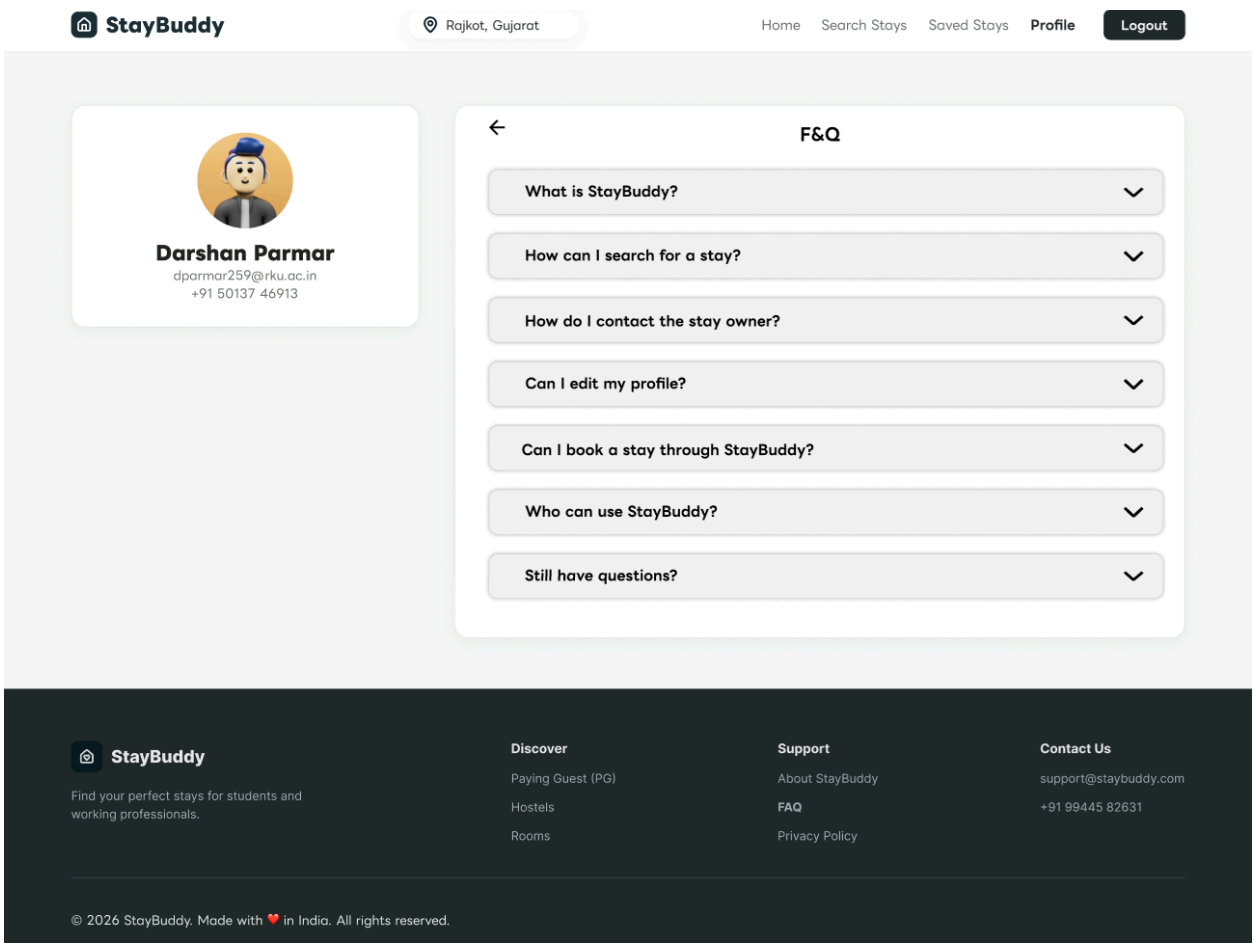

## 13. About StayBuddy

Explains what StayBuddy is, its purpose, and how it helps users find suitable accommodation.

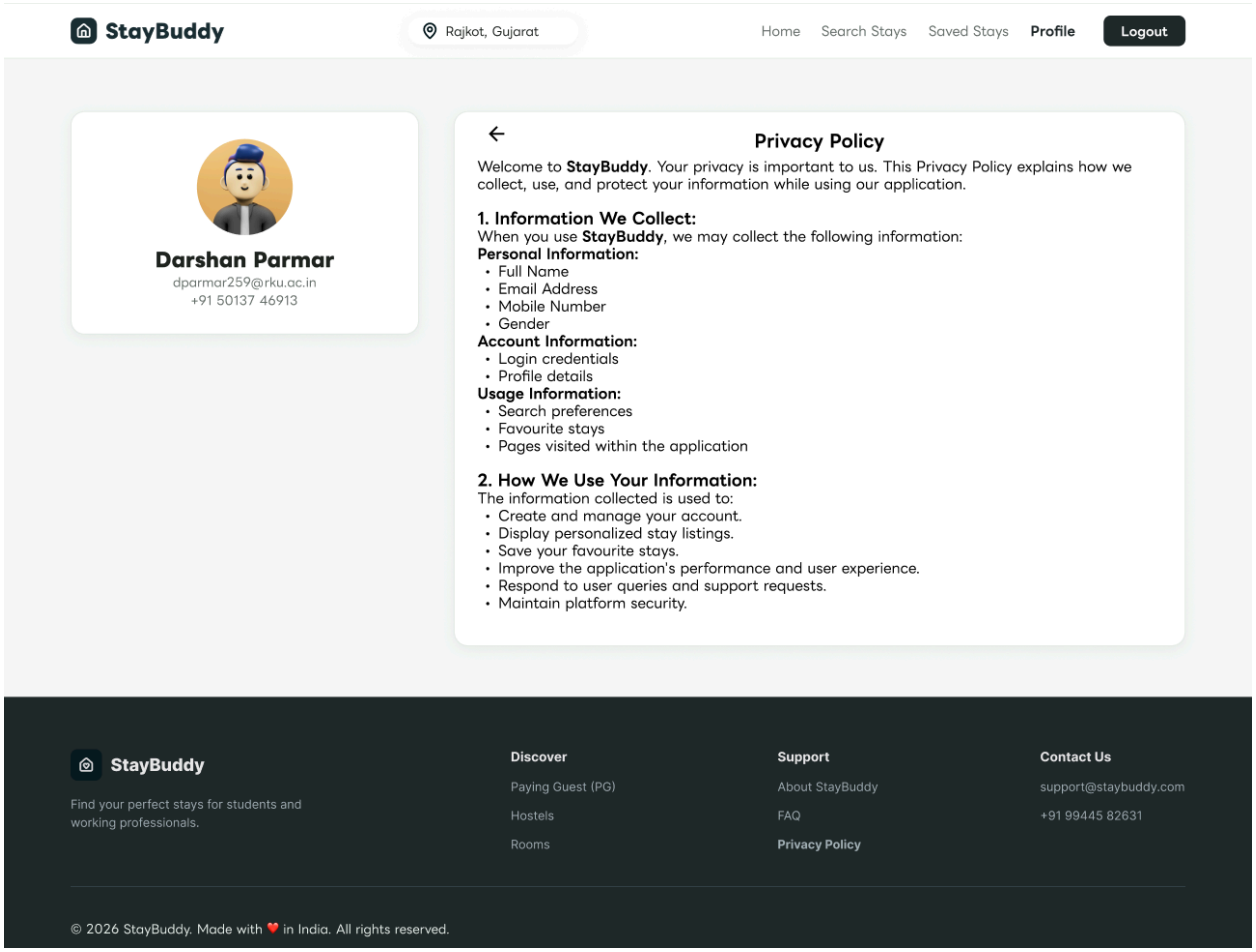

**14. Frequently Asked Questions (FAQ)**

Contains answers to common questions about StayBuddy and helps users understand how the platform works.

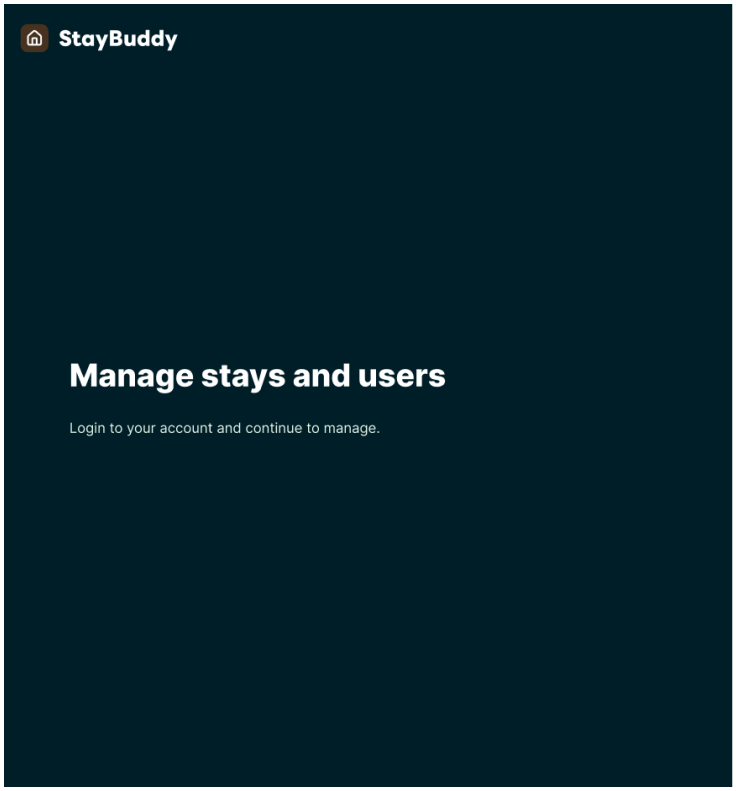

**15. Privacy Policy**

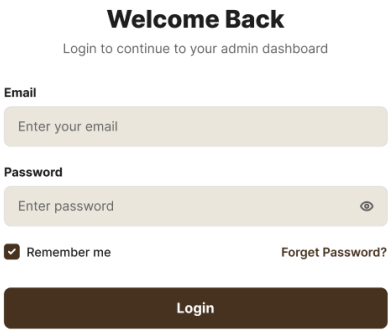

Explains how StayBuddy handles and protects users' personal information and data.

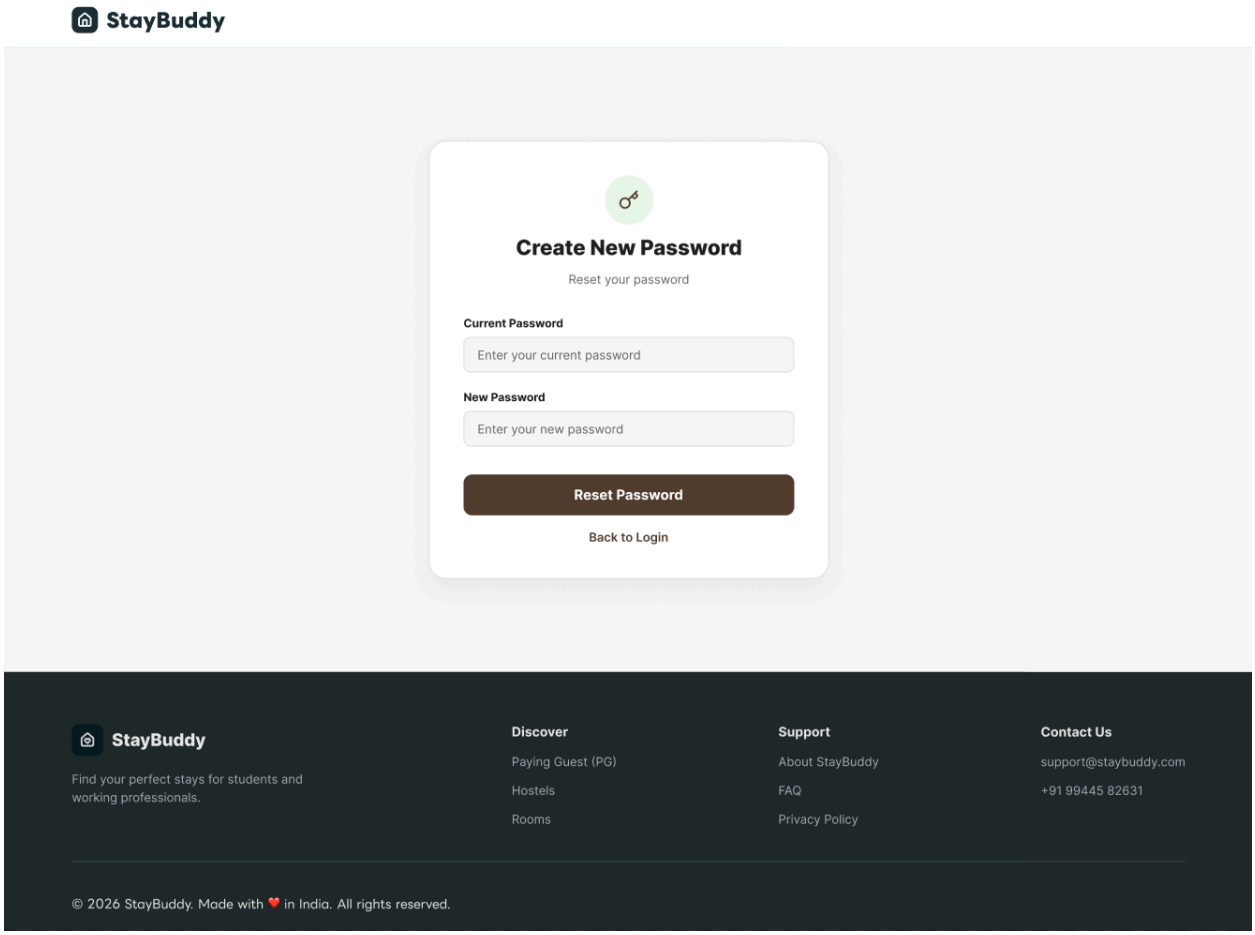

# Admin

1. **Login**
   Allows the administrator to securely access the StayBuddy admin panel.

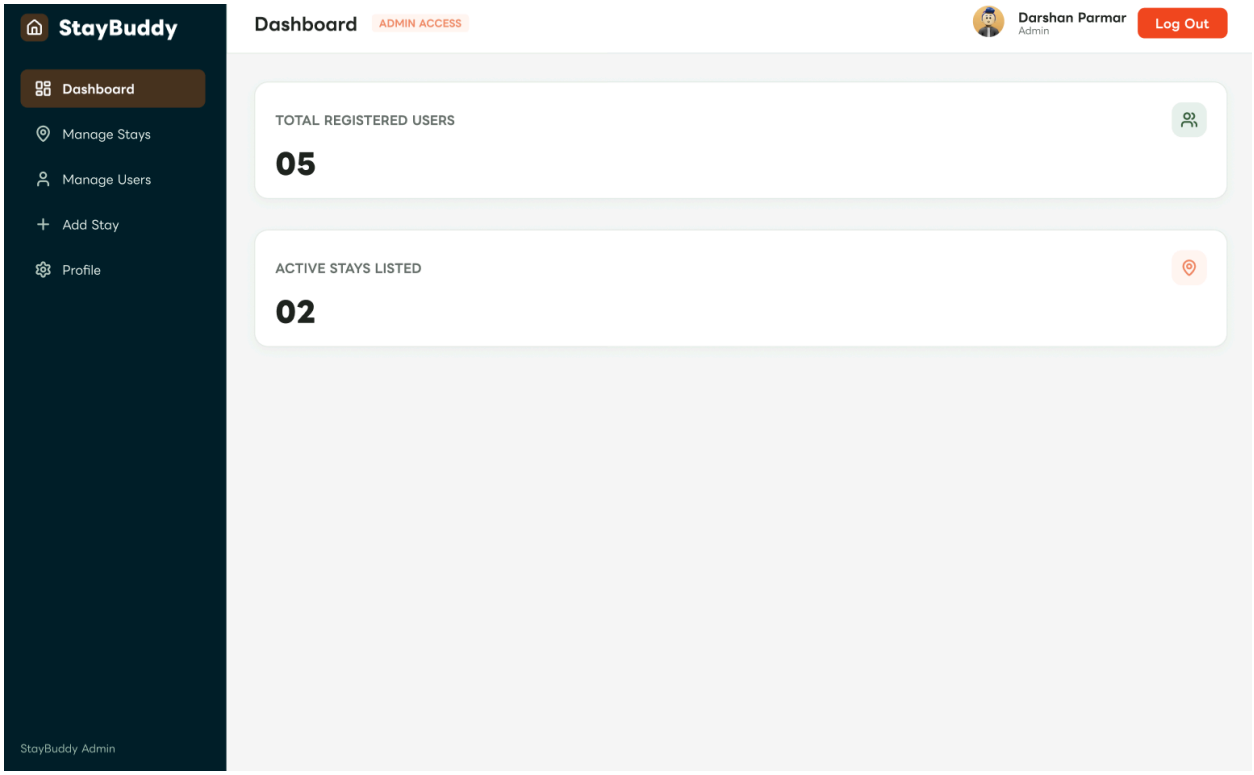

2. **Forgot Password?**
   Helps the administrator reset their password and regain access to the admin account.

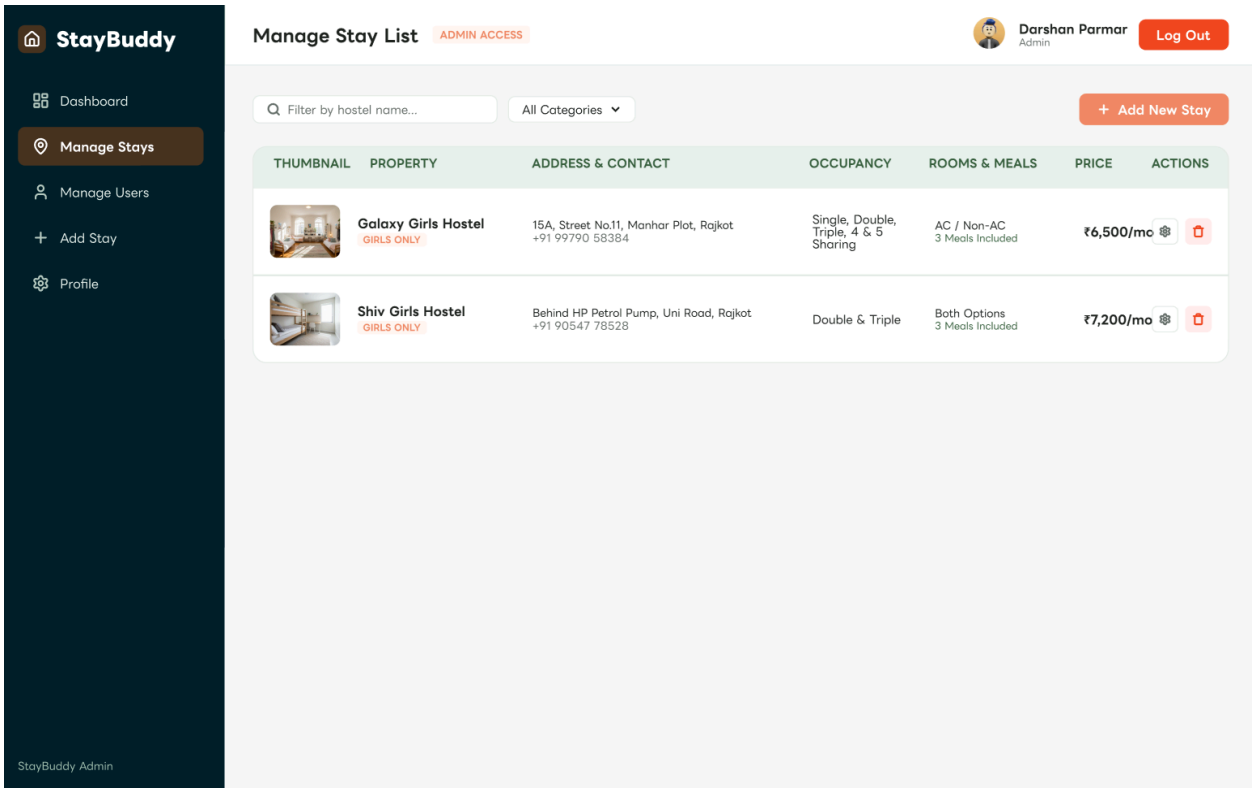

3. **Dashboard**
   Provides the administrator with an overview of the system and quick access to different management options.

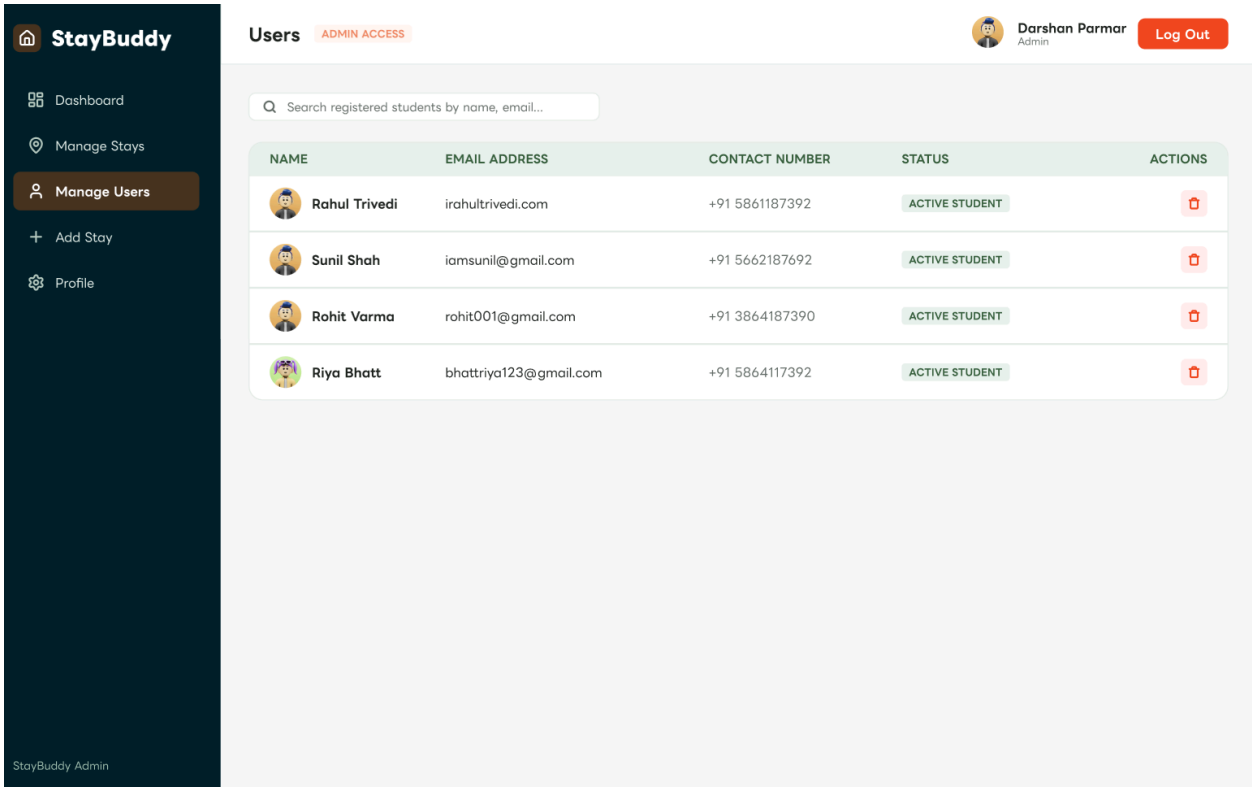

4. **Manage Stays**

   Allows the administrator to view, update, and manage the stays listed on StayBuddy.

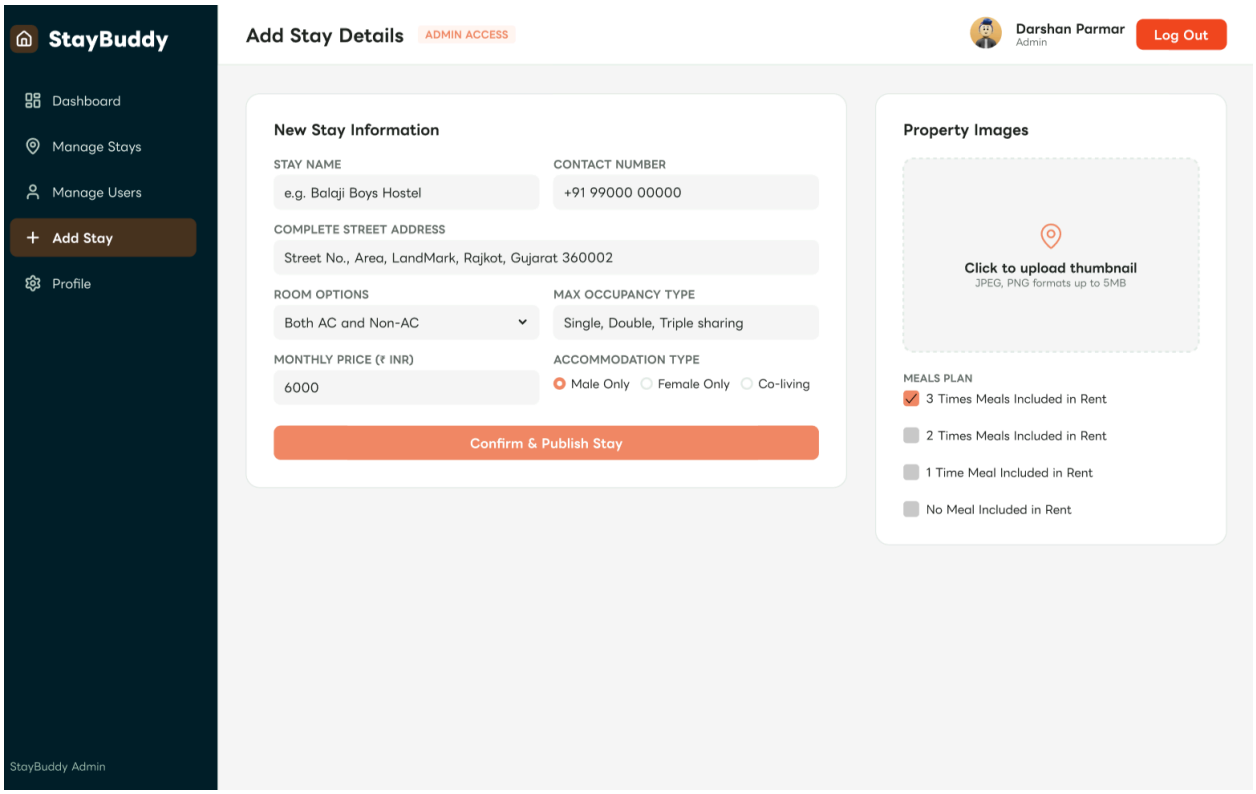

5. **Manage Users**
   Allows the administrator to view and manage registered users and their account information.
